

Math Counts!

at
John McMillan Preschool

Developing an understanding of numbers and counting, or number sense, is essential to the later development of more involved mathematical skills. Children are building inquiry, problem solving and reasoning skills when they sort, compare, describe and put things in order. Playing with blocks, doing puzzles and learning shapes teaches spatial skills and math vocabulary.

Hands on math will include measuring, weighing, sorting, patterning, counting, graphing, and estimating through games and fun activities. We'll read books about different math concepts, and talk about how math and numbers are all around us!

Research shows that the earlier we give children opportunities to acquire math skills, the more successful they are in all areas of learning later on.

Children must be 3½ by September 30, 2019 to enroll.

Wednesday Afternoons from 11:45-2:15pm*

*Includes 1 hour for lunch and play with friends

September 25 – November 6, 2019

*No class Wednesday, October 2

Child's name _____ Date of birth _____

E-mail address _____
