

Holiday Bakers!

at
John McMillan Preschool

In this class children will get to create and eat delicious holiday foods that they make themselves.

Cooking develops science, math, language, and reading readiness skills:

- Cooking inspires children’s curiosity, thinking, and problem solving, offering new opportunities to make predictions and observations
- Basic chemistry as children discover how certain ingredients combine, react, and change as they cook
- Math skills such as counting, measuring, patterning, simple fractions, and one-to-one correspondence
- Discussing what children see, taste, and feel increases their vocabulary
- Skills are enhanced when little fingers tear, stir, and pour
- Children develop teamwork and cooperation as they follow multiple directions with their partner chefs

To accommodate more children, this class is being offered on 2 separate days, please choose **only one** of the days below.

Children must be 4 by September 30, 2022 to enroll.

This class is not recommended for children with food allergies.
