

Full S.T.E.A.M Ahead!

Science, Technology, Engineering, Art & Math
at
John McMillan Preschool

S.T.E.A.M. is about discovery and exploring the world around us. It's about asking how or why something works. Children are curious by nature and are great at this!

S.T.E.A.M. activities promote critical thinking skills, creativity and problem solving:

- Building with blocks and other materials
- Playing with magnets; exploring ramps
- Exploring tools and simple machines to figure out how they work
- Observing the weather and seasonal changes
- Estimating, measuring, identifying and creating patterns
- Using different art mediums and tools; color blending
- Science experiments
- Reading non-fiction books

Research shows that the earlier we give children opportunities to acquire S.T.E.A.M. skills, the more successful they are in all areas of learning later on.

Children must be 3½ by September 30, 2022 to enroll.

This class will be offered first to students who were not in the fall class. If spots are available, it will be open to students that participated in the fall.

Thursday Afternoons from 11:45-2:15pm*

Jan. 26- March 2, 2023

Please remember we are a nut free school when packing lunches

Child's name _____ Date of birth _____

E-mail address _____
